

WELL SITE SAFETY FAST FACTS

Well sites are not play sites.

They look cool, but they are dangerous to anyone who is not a trained professional.

Leave it to the professionals.

The experts who work on well sites have lots of training and education to help keep them safe.

Help Oklahoma stay safe.

Do your part in keeping Oklahoma and your neighbors safe by looking at well sites from a distance.

Well site
safety
starts
with you!

Even if it looks safe, stay out!

Even if a pumping unit is stopped, it is not safe. Many units are on timers and can start without warning.

Ask a teacher or parent for help.

If you see someone playing on or around oil field equipment, tell a parent or teacher.

OTHER FAST FACTS

Oklahoma is the 4th largest producer of oil and natural gas in the US.

96% of manufactured goods comes from oil and natural gas byproducts like your cell phone!

There are 140,000 oil and natural gas professionals in Oklahoma.
